

RENAULT RAFALE E-TECH HYBRID

available in E-Tech full hybrid 200hp
and E-Tech 4x4 300hp plug-in hybrid engines.

17 December 2024

aiming higher inspires reinvention

Designed to reinvent performance, Renault Rafale pays tribute to the brand's pioneering spirit - yesterday in the air with the Caudron-Renault Rafale, today on the road. The same determination and boldness combined with the most advanced technologies: E-Tech full hybrid 200hp engine and E-Tech 4x4 300hp engine, 4Control advanced system⁽²⁾, Solarbay[®] opacifying panoramic sunroof⁽²⁾.

a bold vision of design

Inspired by the aviation industry, the design of Renault Rafale replicates the precision and fluidity of an aircraft's fuselage. With its sporty silhouette, sculpted lines, powerful light signature and floating rear spoiler, Renault Rafale redefines the word "bold".

The front grille comes to life in an array of diamonds to create a visual statement and graphic interactions. At the rear, the lines finish on a spoiler, while the specific 21" wheel rims express a distinctive design⁽¹⁾.

The sports seats⁽²⁾ with side reinforcements help create a driving experience that combines comfort and support. Inserted in the backs of the front seats, the Alpine logo lights up in a heartbeat sequence as soon as the driver approaches the vehicle⁽²⁾. The upholstery is enhanced by blue, white and red top-stitching⁽²⁾.

60% recycled Alcantara® upholstery⁽³⁾

(1) 21" wheels are available on atelier Alpine version. (2) available only for the esprit Alpine and atelier Alpine versions. (3) according to ISO standard 14021.

02. driving pleasure

E-Tech full hybrid 200hp and E-Tech 4x4 300hp engines

E-Tech full hybrid 200hp

up to
683 miles
of range⁽¹⁾

up to
60.1 mpg⁽³⁾

from
105 g/km
CO₂ emissions⁽⁵⁾

E-Tech 4x4 300hp plug-in hybrid

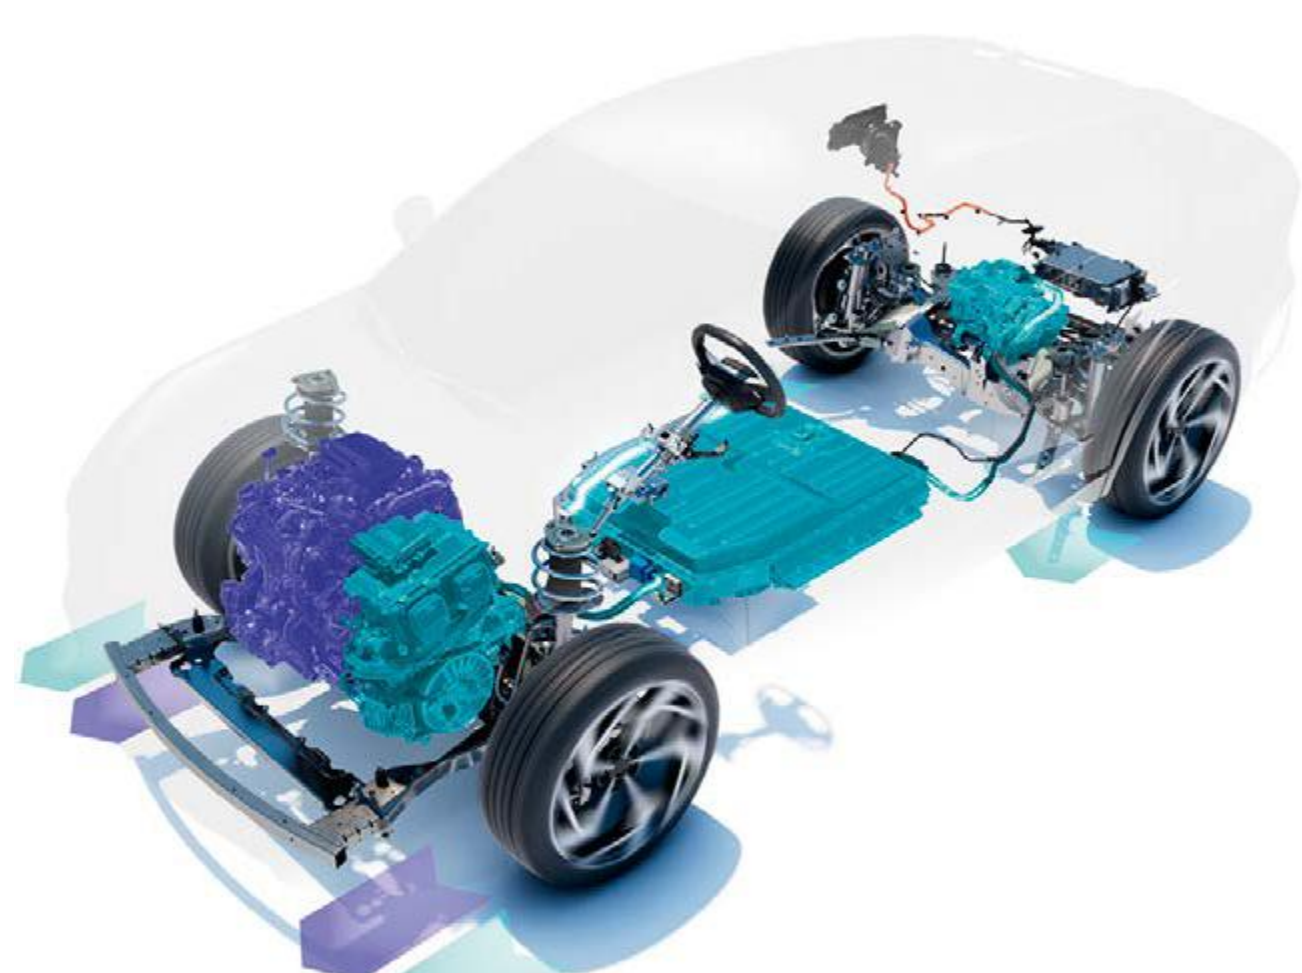

up to
621 miles
of total range⁽²⁾

up to
65 miles
of range in
fully electric mode⁽⁴⁾

from
12 g/km
CO₂ emissions⁽⁵⁾

The E-Tech full hybrid 200hp and E-Tech 4x4 300hp plug-in hybrid engines combine performance and efficiency. Start-ups are systematically electric, accelerations are sharp and dynamic. Silence, responsiveness, fluidity, whether you're driving in town or on the road.

E-Tech full hybrid 200hp engine

Enjoy hybrid driving with no need to plug your vehicle into a socket. With the ability to drive in electric mode without any noise, and automatically charge the battery when decelerating or braking.

E-Tech 4x4 300hp plug-in hybrid engine

With its 22 kWh rechargeable battery, you can drive up to 65 miles in 100% electric mode⁽⁴⁾, equivalent to most of your daily journeys. Charge from an electrical outlet or charging point: public, at work or at home.

	E-Tech full hybrid 200hp	E-Tech 4x4 300hp plug-in hybrid
technology	1 traction battery + 1 electric engine + 1 internal combustion engine + automatic multimodal gearbox	1 high-capacity traction battery + 2 electric engines + 1 internal combustion engine + automatic multimodal gearbox
combined maximum torque (Nm) (not cumulative)	205 + 205 N.m	230 + 205 + 200 N.m
battery capacity	1.7 kWh	22 kWh / 400 V
fuel consumption⁽⁵⁾	60.1 mpg	up to 564.9 mpg
CO₂ emissions⁽⁵⁾	from 105 g/km	from 12 g/km
energy recovery via decelerating and braking	yes	yes
management of the energy recovery	yes	yes
electric assistance to the internal combustion engine	yes	yes
acceleration	From 0 to 62 miles per hr in 8.9 seconds	From 0 to 62 miles per hr in 6.4 seconds
rechargeable	no need to connect to a terminal. recharges when deceleration and braking	on a public electrical outlet or terminal, at work or at home + when decelerating and braking

(1) up to 683 miles range with a full tank, according to WLTP data. WLTP figures shown for comparability purposes only. Actual real world driving results may vary depending on factors including the fullness of the tank, accessories fitted after registration, weather conditions, driving styles and vehicle load.

(2) up to 621 miles of driving range with a full tank of petrol and a fully charged battery according to WLTP data. WLTP figures shown for comparability purposes only. Actual real world driving results may vary depending on factors including the fullness of the tank, starting charge of the battery, accessories fitted after registration, weather conditions, driving styles and vehicle load. (3) according to WLTP data.

(4) WLTP figures shown for comparability purposes only. Actual real world driving results may vary depending on factors including the starting charge of the battery, accessories fitted after registration, weather conditions, driving styles and vehicle load / source: internal Renault, 2024, techno esprit Alpine version. The vehicle is plug-in hybrid not pure electric therefore, must have fuel in the tank to operate.

(5) according to the WLTP protocol.

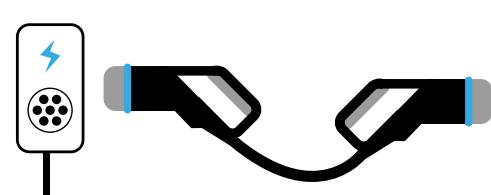

At home, at work and on the go, enjoy a wide range of tailor-made offers for charging the Renault Rafale E-Tech 4x4 300hp plug-in hybrid.

domestic

domestic charging station

7.4 kW AC

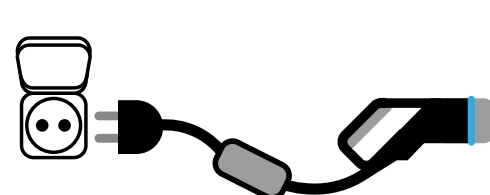

mode 3 cable

reinforced domestic socket

3.7 kW AC

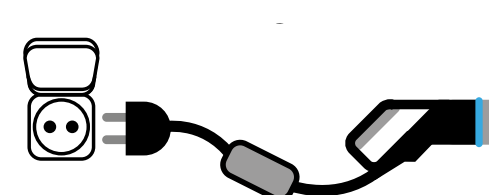

mode 2 cable or flexi-charger as accessory

standard 3-pin domestic socket

2.3 kW AC

charging time

0 to 100% → 2 h 55

0 to 100% → 5 h 35

0 to 100% → 9 h 5

charging at home or at work

maximum 7.4 kW AC charging

Charge Renault Rafale E-Tech 4x4 300hp easily at home⁽¹⁾ with a wall-mounted charging station or a standard 3-pin 2.3kW socket. Where possible, take advantage of the public network to charge the battery to 80% in just under 3 hours at the 7.4 kW charging points.

My Renault application

Check your range at any time; start charging remotely or schedule it at off-peak times.

Mobilize power solutions

Order your charging solution and get it installed. Install a Mobilize Powerbox Uno charging point or a reinforced socket in your home to charge your vehicle with ease. And at work, benefit from the Mobilize Powerbox Uno+ charging station. Order your charging solution from the Renault network, and an expert will install it before your Renault Rafale is delivered.

on-street charging

Mobilize charge pass

Charge easily during your journeys. Locate available charging terminals on your My Renault app, and pay with a single gesture. Charge at public AC terminals when travelling in urban areas, shopping centres, or at your holiday destination.

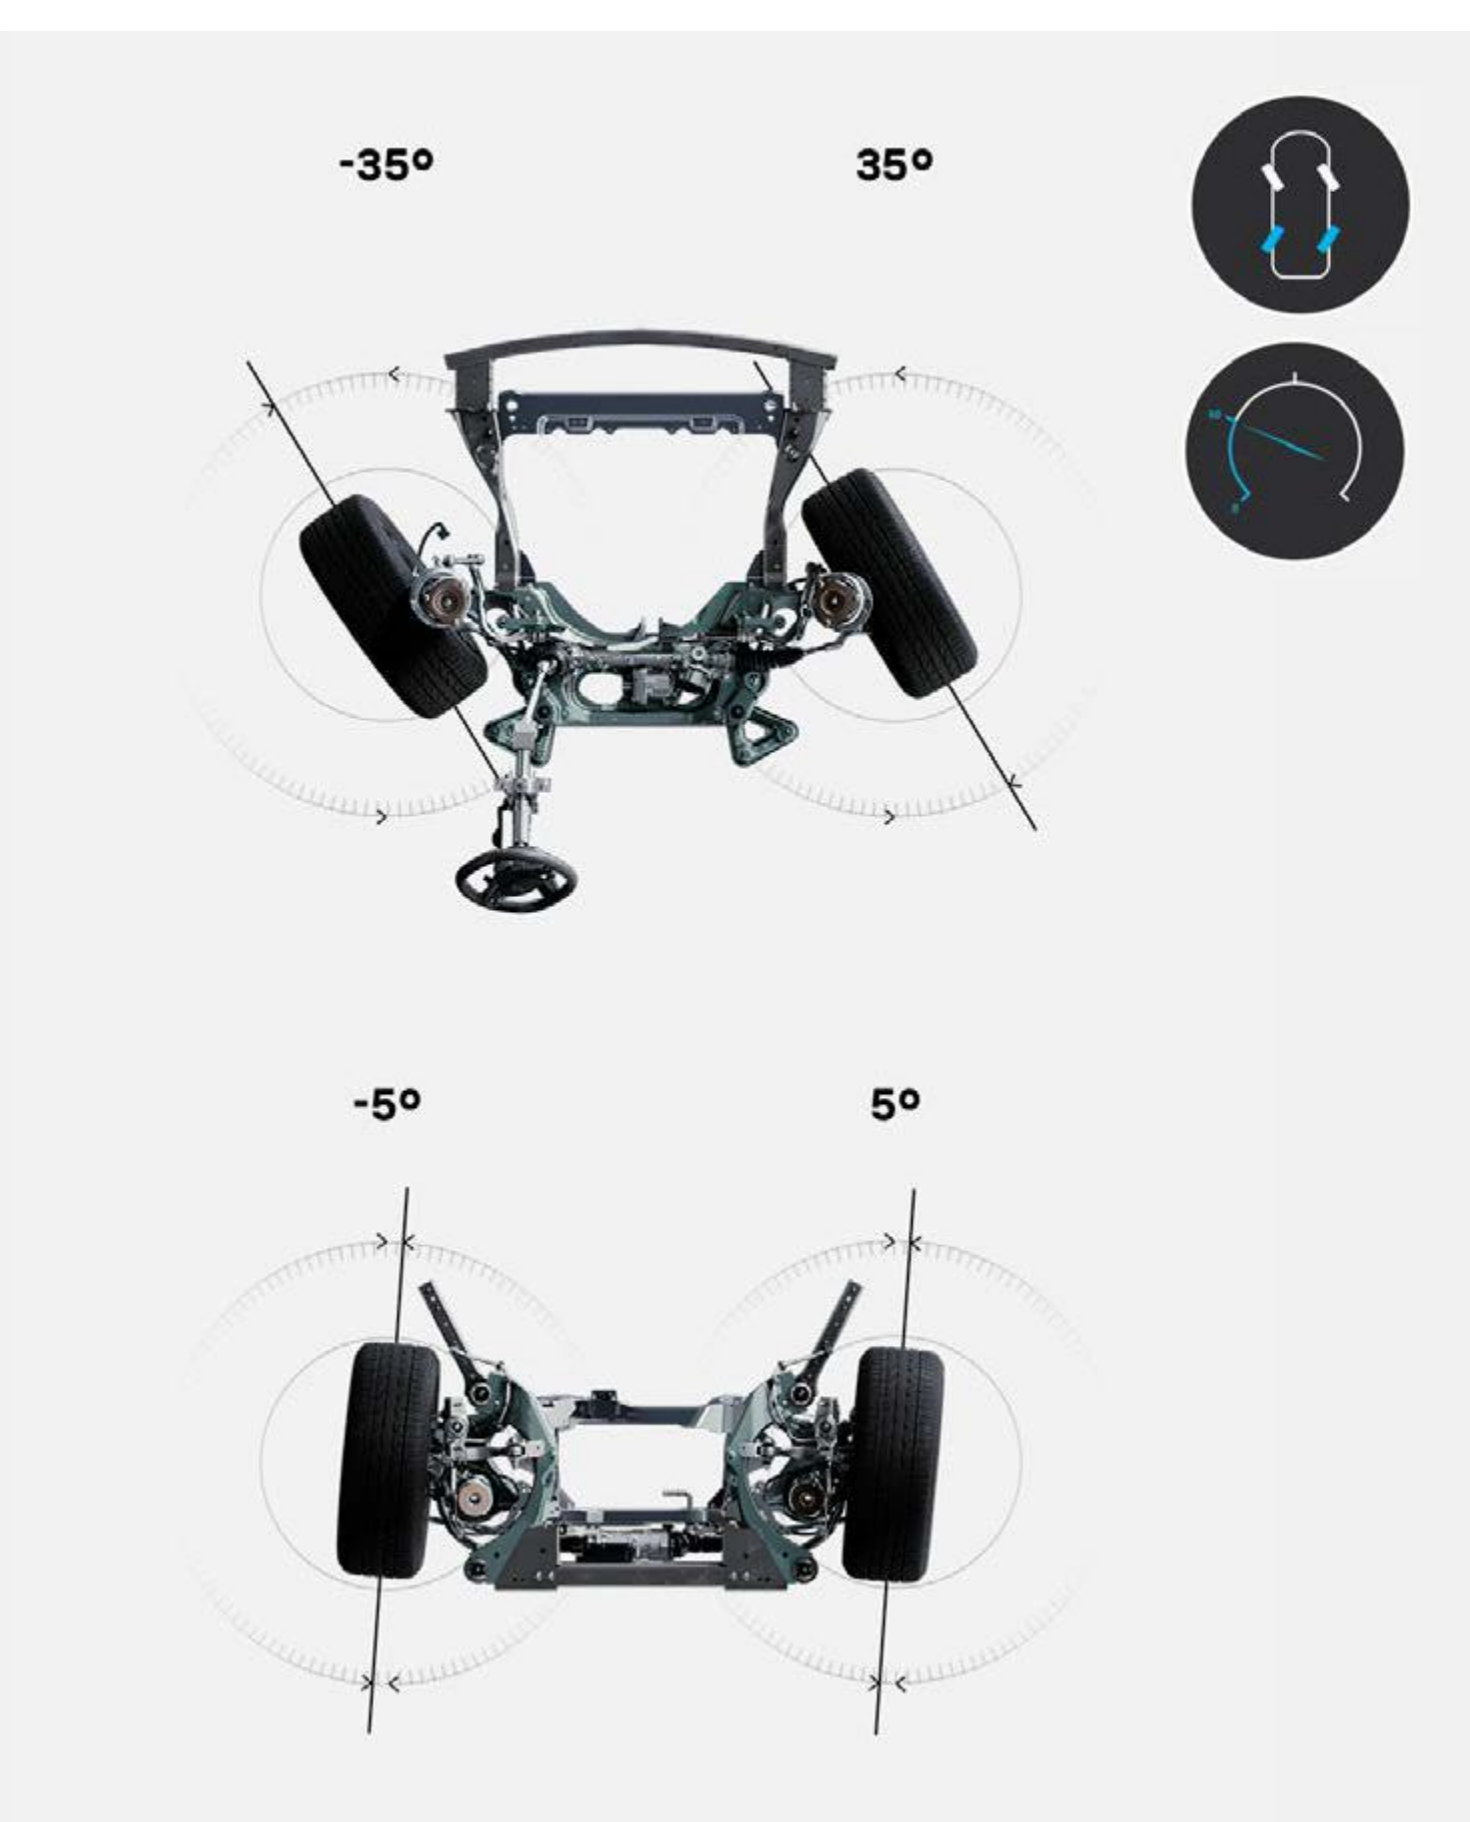

(1) Mobilize power solutions offering. For more information about Mobilize services, go to the Mobilize services page. For more information about charging, call 0800 12 34 56.

4Control advanced

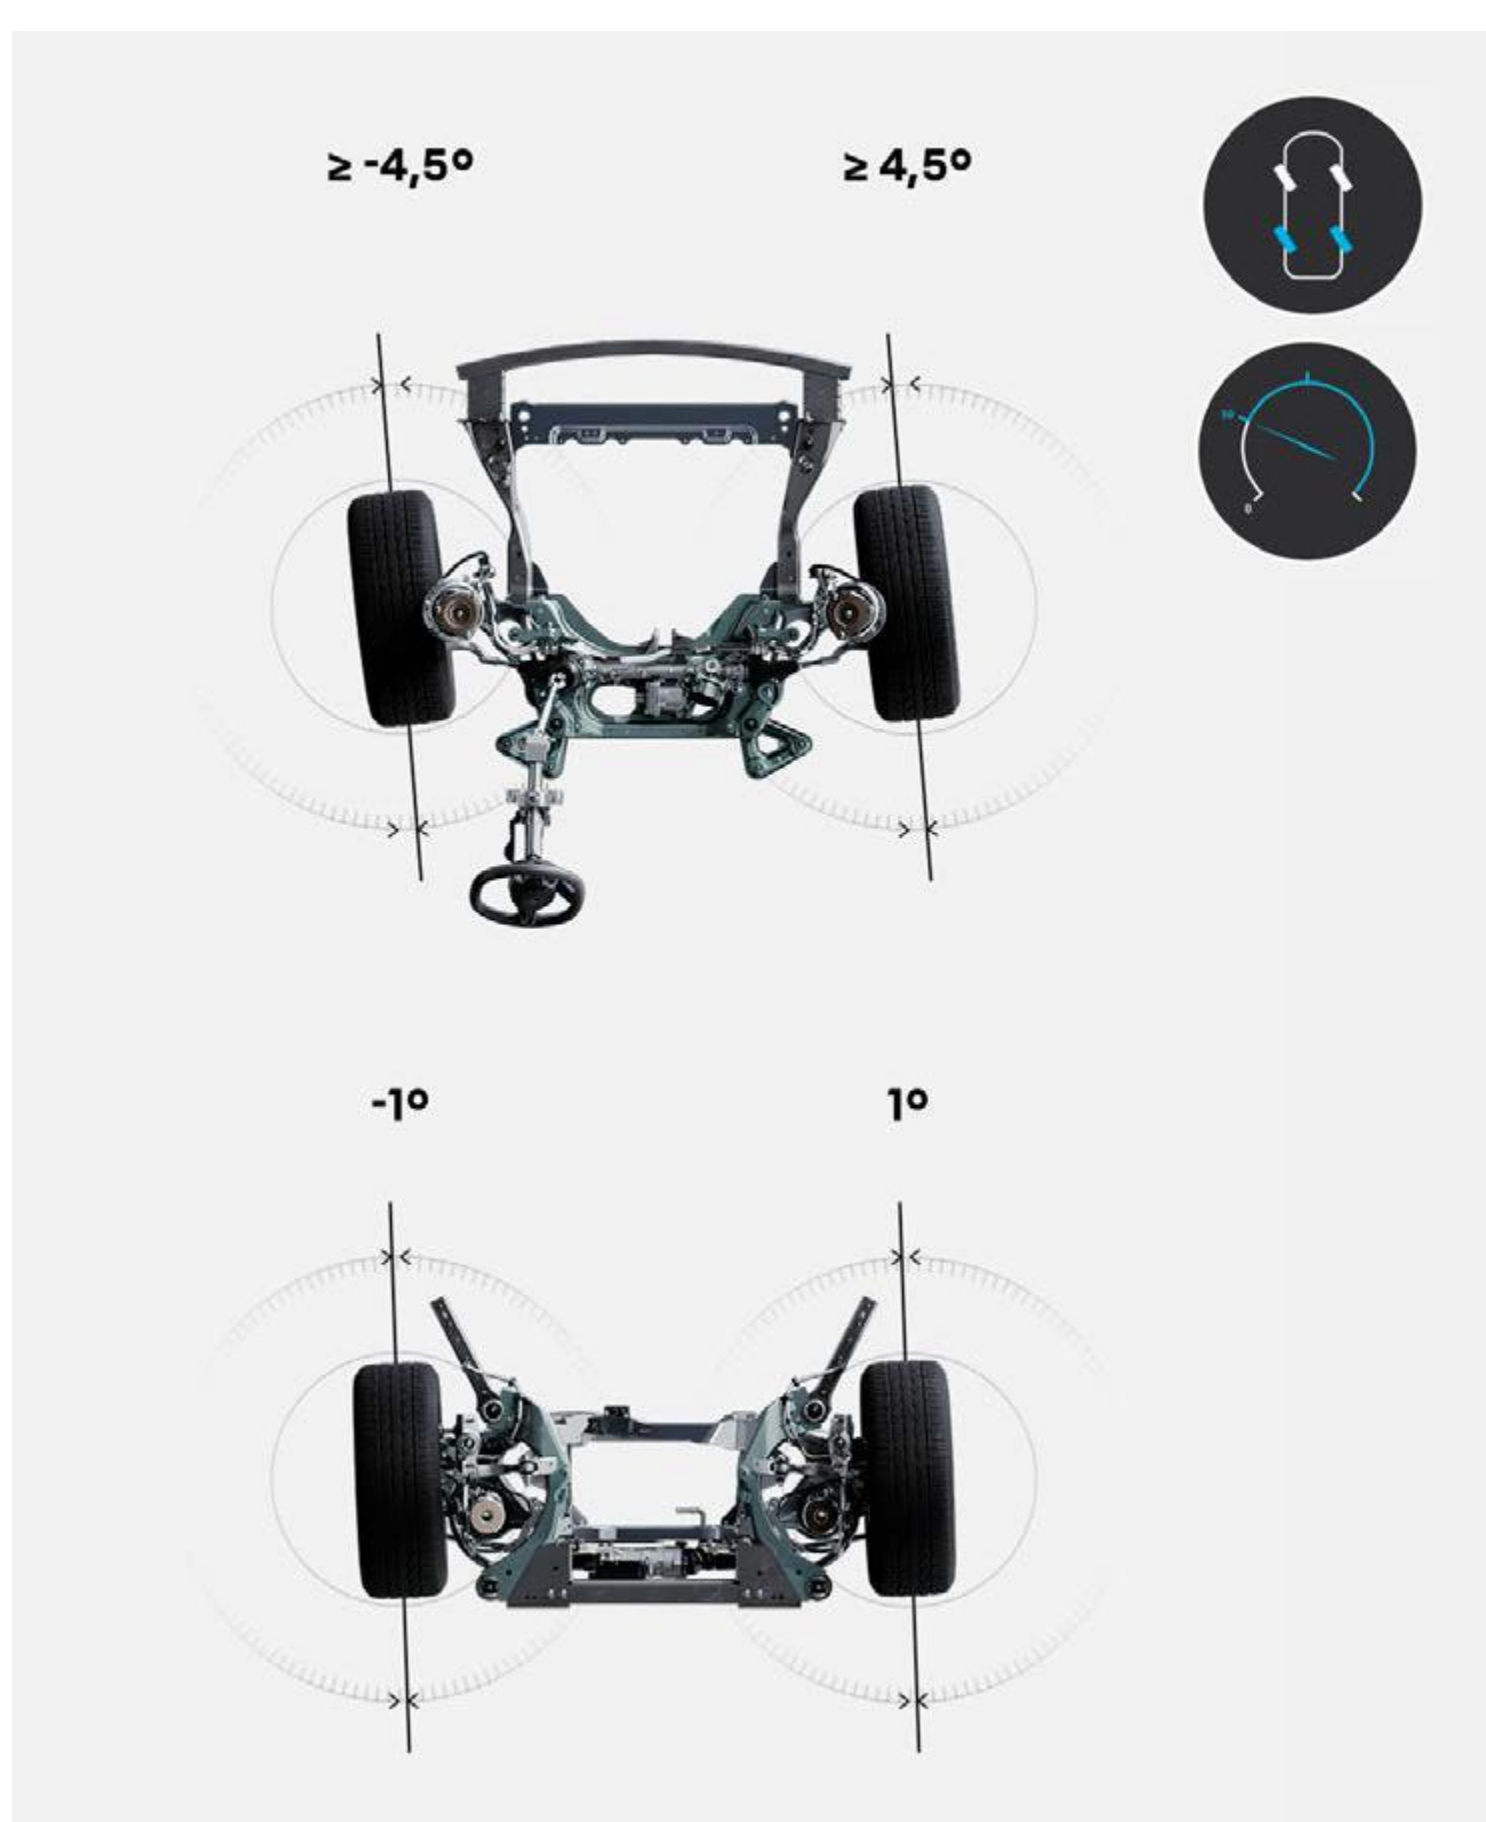

The 4Control advanced system with 4-wheel steering⁽¹⁾ makes trajectories clear, precise and safe. Curves and bends are perfectly controlled.

The turning circle of 10.4 m⁽²⁾ is close to that of a city car.

up to 31 mph, the rear wheels turn in the opposite direction to the front wheels to reduce the turning circle and facilitate manoeuvring.

above 31 mph, the rear wheels turn in the same direction as the front wheels to improve road handling and safety.

(1) 4Control standard from techno esprit Alpine on E-Tech 200hp full hybrid and all versions of 300hp plug-in hybrid. (2) 10.4 turning circle for versions with 4Control.

atelier Alpine version

The Renault Rafale atelier Alpine version is a perfect fusion of Alpine engineering and thrilling performance. Experience the ultimate drive with our latest-generation E-Tech 4x4 300hp plug-in hybrid engine, designed for both power and agility. Enjoy a sporty chassis, advanced active suspension with predictive camera technology, and the innovative 4Control system with 4-wheel steering. Get ready to elevate your driving experience to new heights!

black floating spoiler available on atelier esprit Alpine in paint colour matte summit blue with black roof only

The chassis tuned by Alpine engineering teams combines 4 components for driving pleasure, offering precision, outstanding grip and traction.

chassis and running gear

Sports tyres and specific anti-roll bar for the best grip on all types of roads with optimised road-handling and 21" chicane wheels for a unique look.

4x4 traction

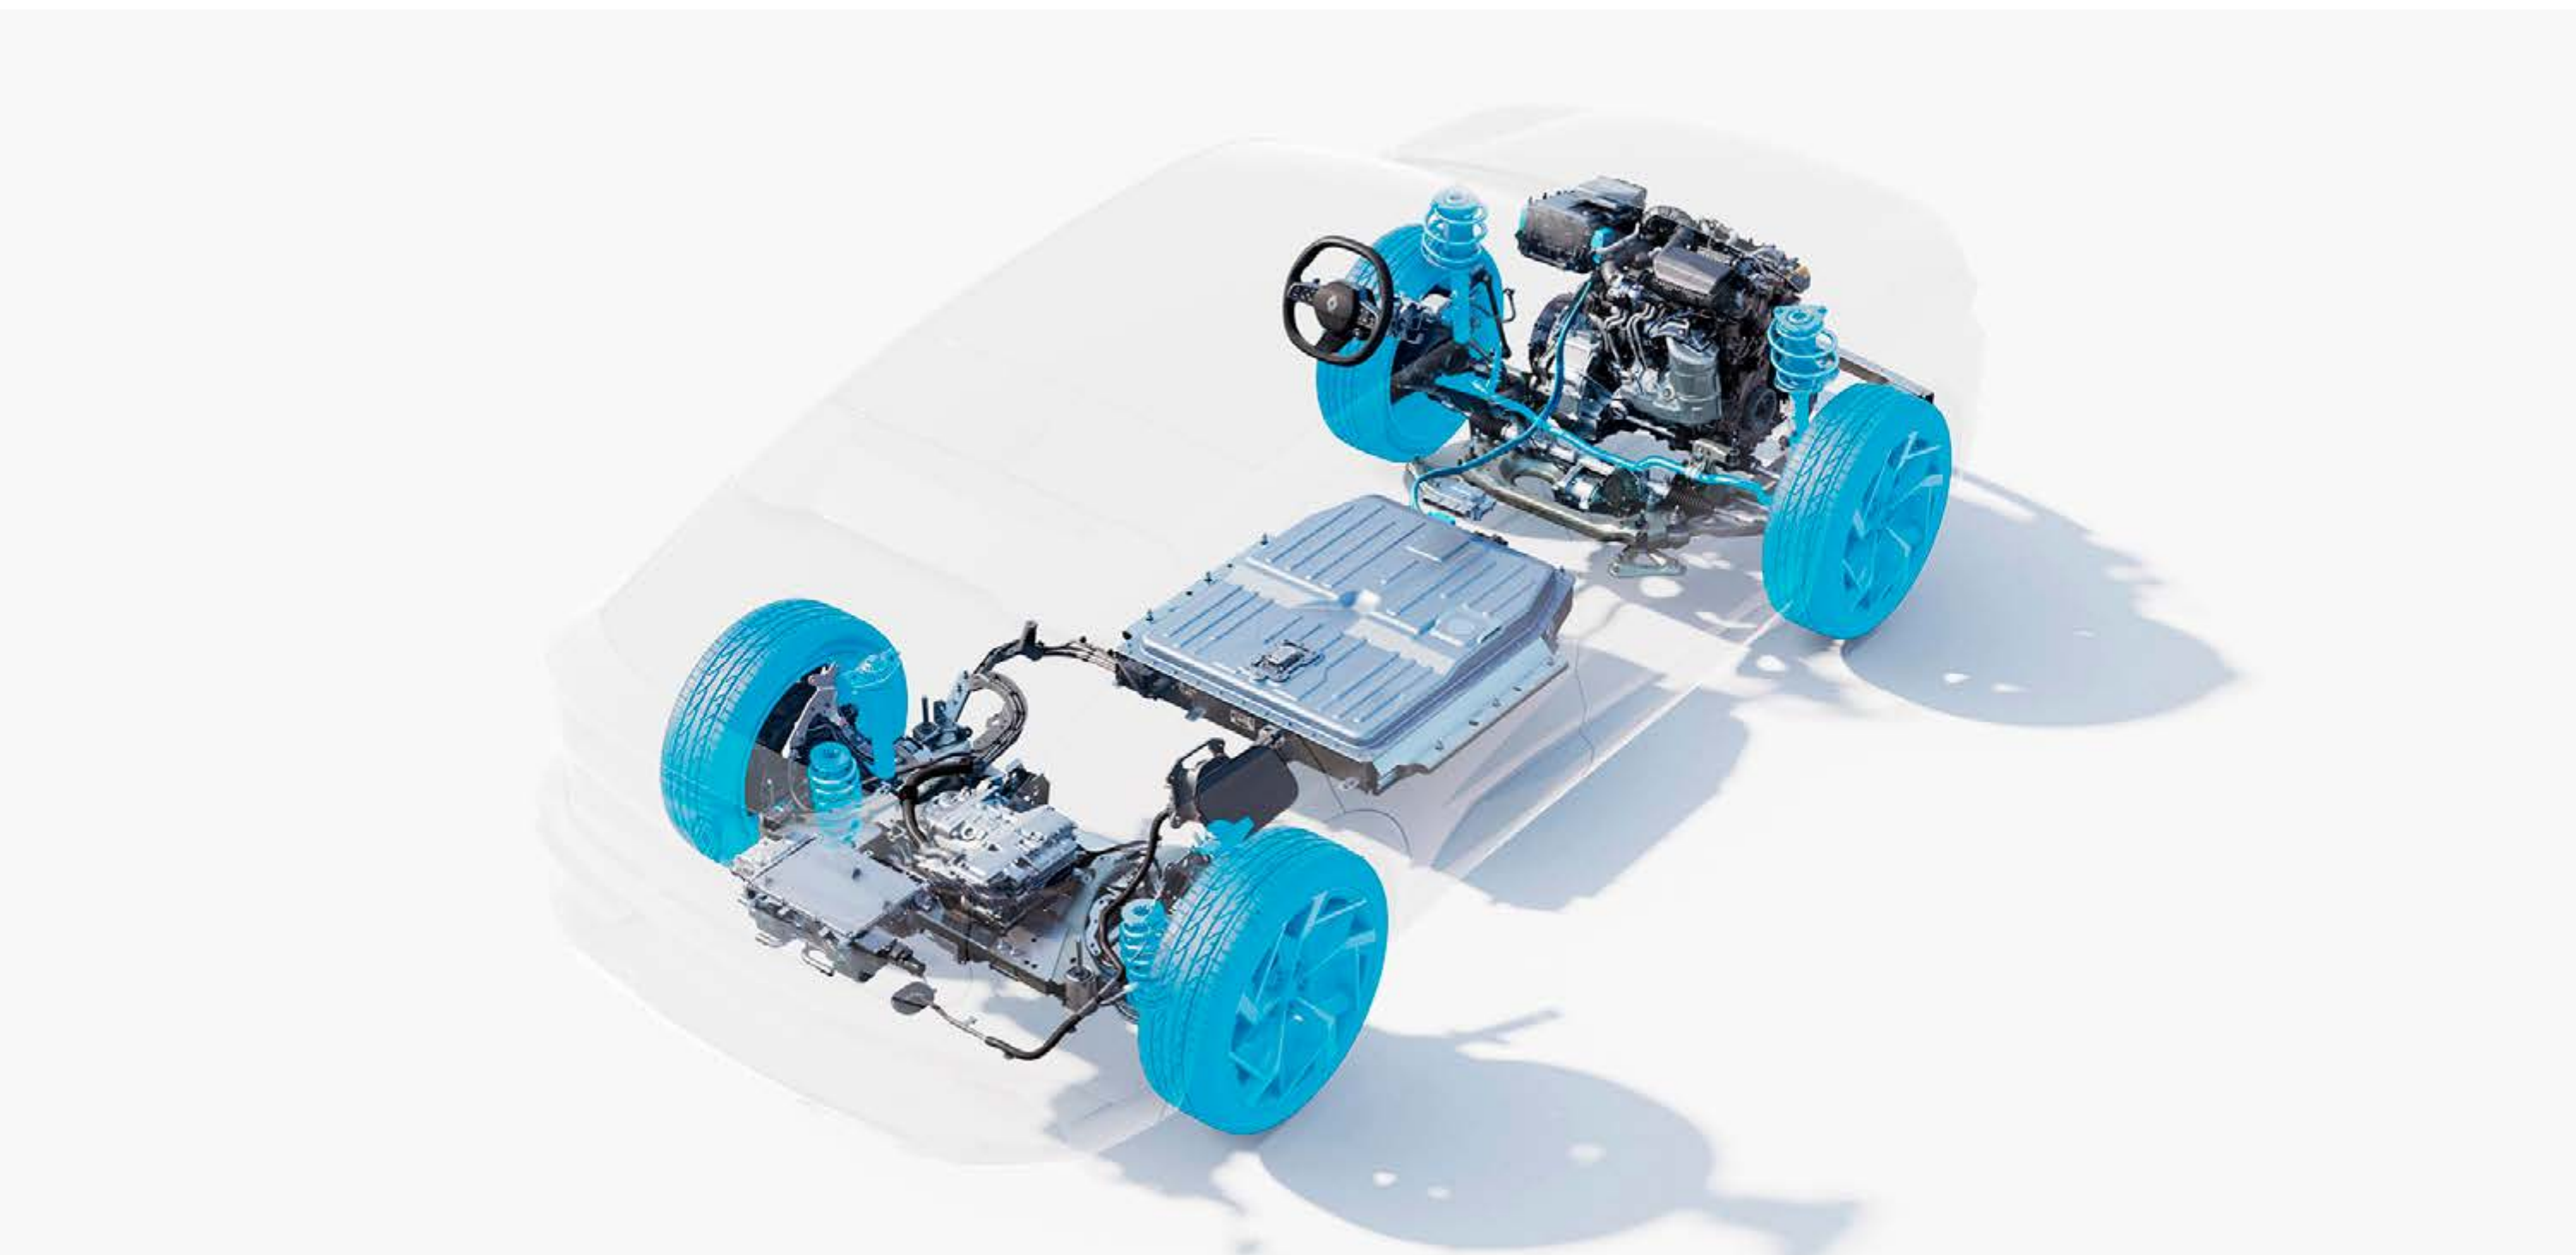

Grip and traction are optimised whatever the conditions and the type of road thanks to its permanent 4-wheel drive.

active suspension with predictive camera

The camera scans the road in real time and allows the shock absorbers to adapt to offer the best compromise between comfort and chassis response.

4Control advanced

The 4-wheel steering system provides agility and dynamism at medium and high speeds and outstanding handling at low speeds. Coupled with the multi-link rear axle, it makes trajectories clear, precise and safe.

For further customisation of your driving style, choose from one of three combinations of chassis tuning via the agility control system: comfort, dynamic and sport modes act on the level of electronic stability control (ESC), active suspension with predictive camera and 4Control advanced system.

	comfort mode	dynamic mode	sport mode
ESC assistance	high	high	intermediate
agility/dynamism	minimal	intermediate	high
depreciation	flexible	intermediate	firm

innovative cockpit

At the heart of a very bright passenger compartment, the ergonomic cockpit features the controls around the steering wheel. Oriented towards the driver, the 2x 12" of openR screens and 9.3" head-up display⁽¹⁾ provide a high-resolution digital on-board surface.

The solarbay[®] opacifying panoramic sunroof⁽²⁾, measuring almost 1 m², can be activated manually or vocally with Google Assistant⁽³⁾. With 4 different levels of opacification, it preserves light levels and thermal comfort on board in both summer and winter.

adjustable opacification with 4 modes (open/closed) and 2 zones (front/rear)

The ingenious⁽¹⁾ rear armrest is dedicated to multimedia activities with storage space for smartphones and tablets, 2 USB-C sockets and 2 fold-out supports for comfortable screen viewing.

one of the most generous amounts of legroom on the market with 302 mm at the rear

The boot is generous with up to 627 litres of loading volume⁽⁴⁾. Easily accessible thanks to the hands-free motorised tailgate⁽⁵⁾, it can accommodate the luggage of all passengers.

(1) available from techno esprit Alpine on E-Tech full hybrid 200hp and all versions of 300hp plug-in hybrid. (2) available on iconic esprit Alpine and atelier esprit Alpine. (3) My Renault, Google Maps and Google Assistant connected services are provided free of charge for 5 years from the date of delivery of your vehicle. Google, Google Maps, Google News, Waze and other marks are trademarks of Google LLC. (4) including underfloor storage on full hybrid. (5) available on the atelier Alpine version.

openR link multimedia system with Google⁽¹⁾ built-in

The 2x12" openR screens give access to the openR link multimedia system with Google⁽¹⁾ built-in. With more than 50 applications including 11 Renault partners via Google Play⁽²⁾ and a wide range of connected services and content.

Road works, changes to the direction of traffic... Google Maps⁽³⁾ updates your journey and offers accurate navigation even if the network goes down.

Voice control: say "Hey Google..." and plan your journeys, adjust the temperature, change your driving mode. The voice assistant is there for you.

Over 50 applications with exclusive content are available via Google Play⁽²⁾, including Waze, SongPop for Renault, and Amazon Music.

Waze is a community-based navigation app that shares information in real time. Waze boosts your peace of mind.

Drive to the beat with our new musical game – **SongPop for Renault!** Play together and rediscover popular songs with your family and friends!

Take to the road while listening to playlists, and much more, with **Amazon Music**, included with your Amazon Prime subscription.

Use Spotify to listen to your favourite podcasts, playlists, and artists all simply using your Google voice activation.

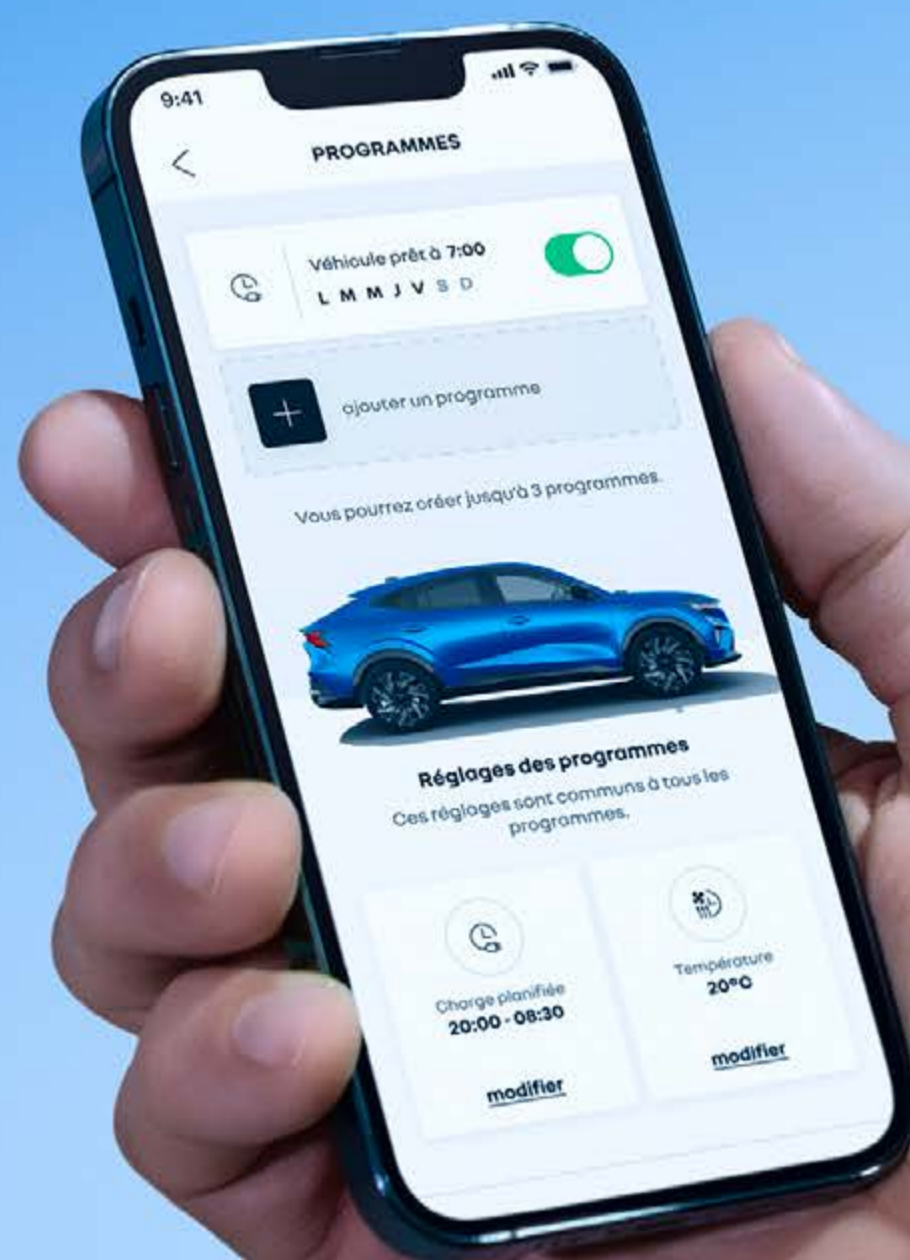

Vivaldi browser is an efficient, fast web browser that respects your privacy.

Access all your favourite radio stations live, at any time, in France or abroad, with **Radioplayer for Renault.**

With the My Renault⁽³⁾ app, interact remotely with your vehicle via your smartphone. Connected services, vehicle location, maintenance history, service reminders and workshop appointments: your Renault Rafale is always within reach.

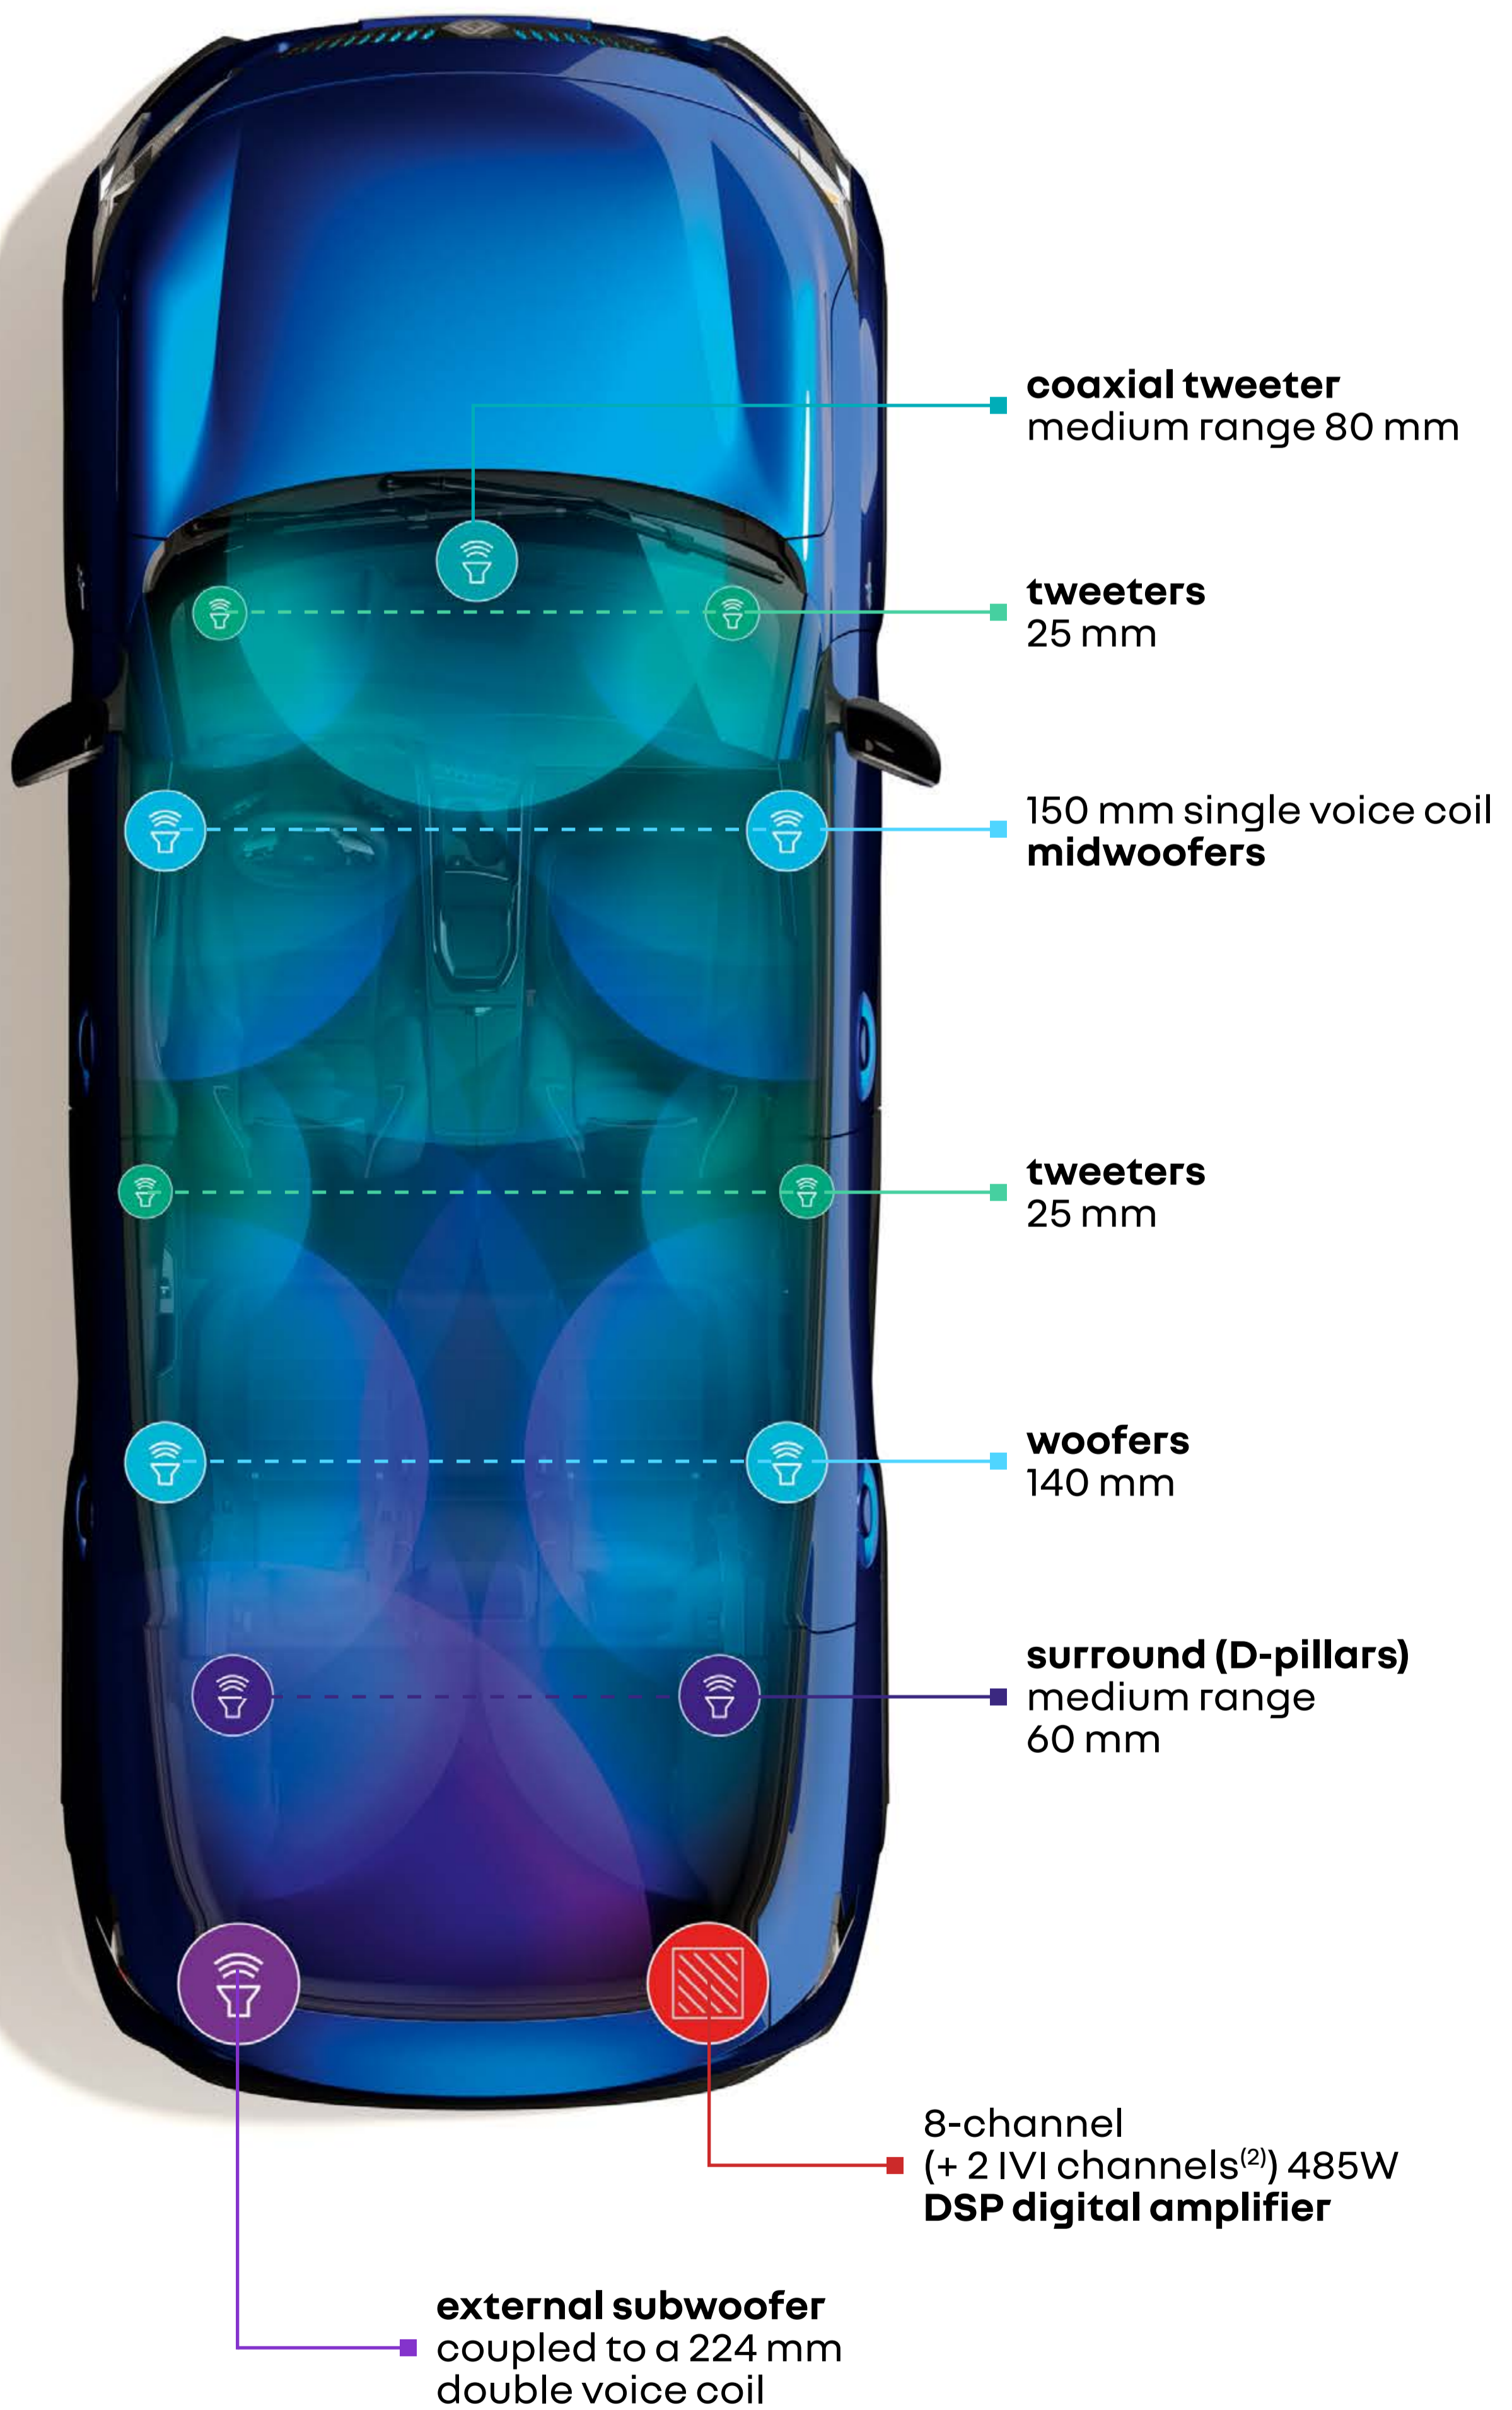

(1) Google, Google Maps, Google News, Waze and other marks are trademarks of Google LLC. (2) The use of applications downloaded from Google Play requires a dedicated data package. To use these apps, share your phone's connection with your Renault. (3) My Renault, Google Maps and Google Assistant connected services are provided free of charge for 5 years from the date of delivery of your vehicle.

Harman Kardon® high-fidelity sound⁽¹⁾

Perfectly sound-proofed thanks to the cocoon-effect technology developed by Renault, the passenger compartment makes it possible to make the most of the high-fidelity Harman Kardon® sound.

5 listening modes developed with Jean-Michel Jarre optimise the sound output according to the source chosen.

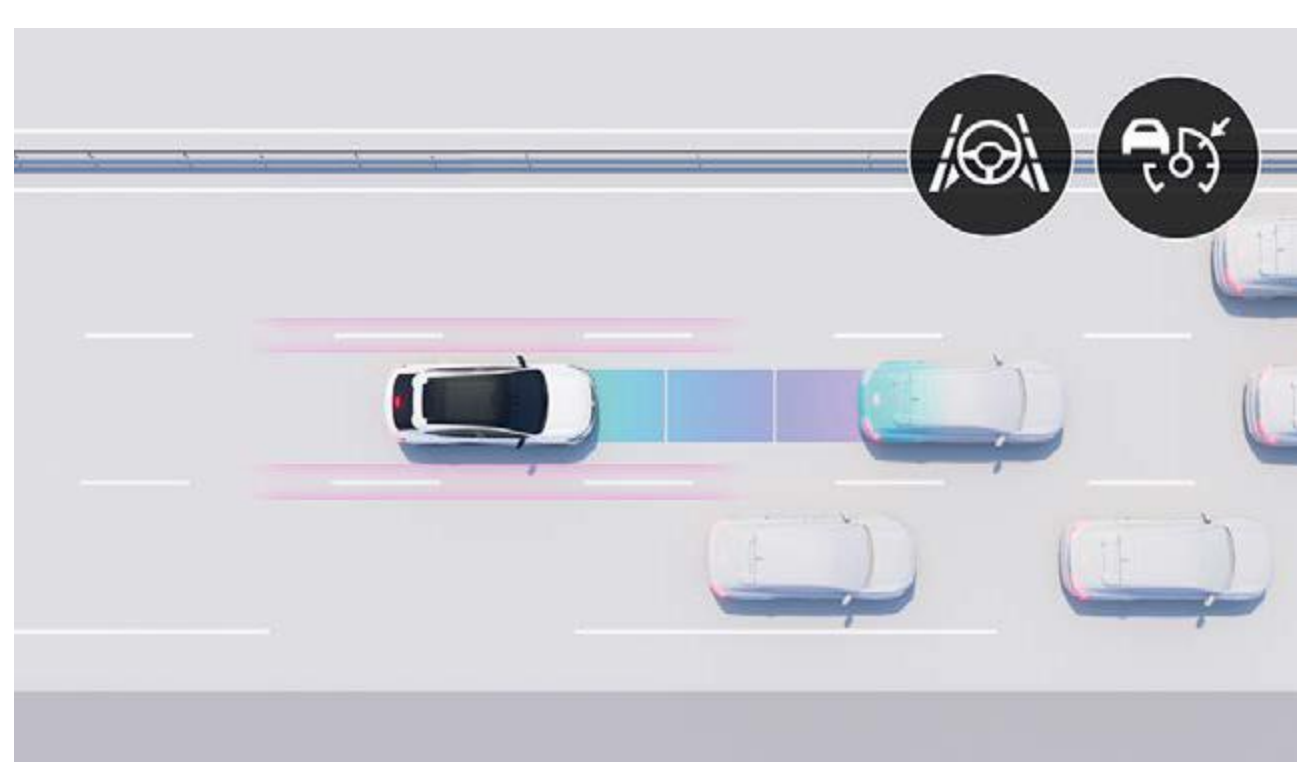

(1) available on iconic esprit Alpine and atelier Alpine. (2) on-board Infotainment (IVI).

05. safety & security

up to 32 advanced driver-assistance systems⁽⁴⁾⁽⁵⁾

active driver assist⁽¹⁾

This system regulates your speed by taking the road environment into account, maintains safe distances and ensures you remain in lane. When traffic slows down, the vehicle stops and restarts automatically.

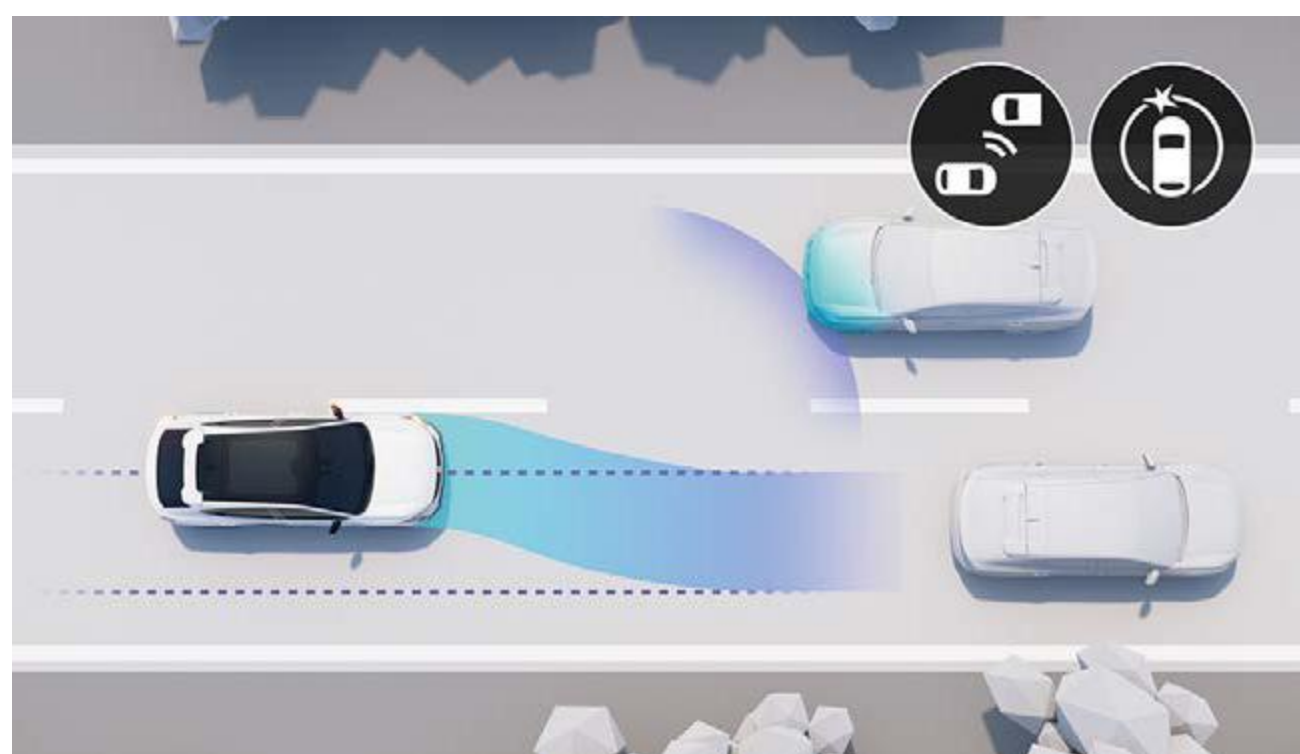

predictive hybrid driving⁽¹⁾⁽²⁾

Your car anticipates thermal, hybrid or 100% electric driving, by continuously analysing your route to know when you will be crossing through a town or if you are likely to encounter a particular topography or a traffic jam. As a result, you improve the fuel consumption and performance of your vehicle.

360° around view 3D camera

The 4 cameras, whose images recreate the vehicle's direct environment 360° around it, allow you to perform your manoeuvres effortlessly.

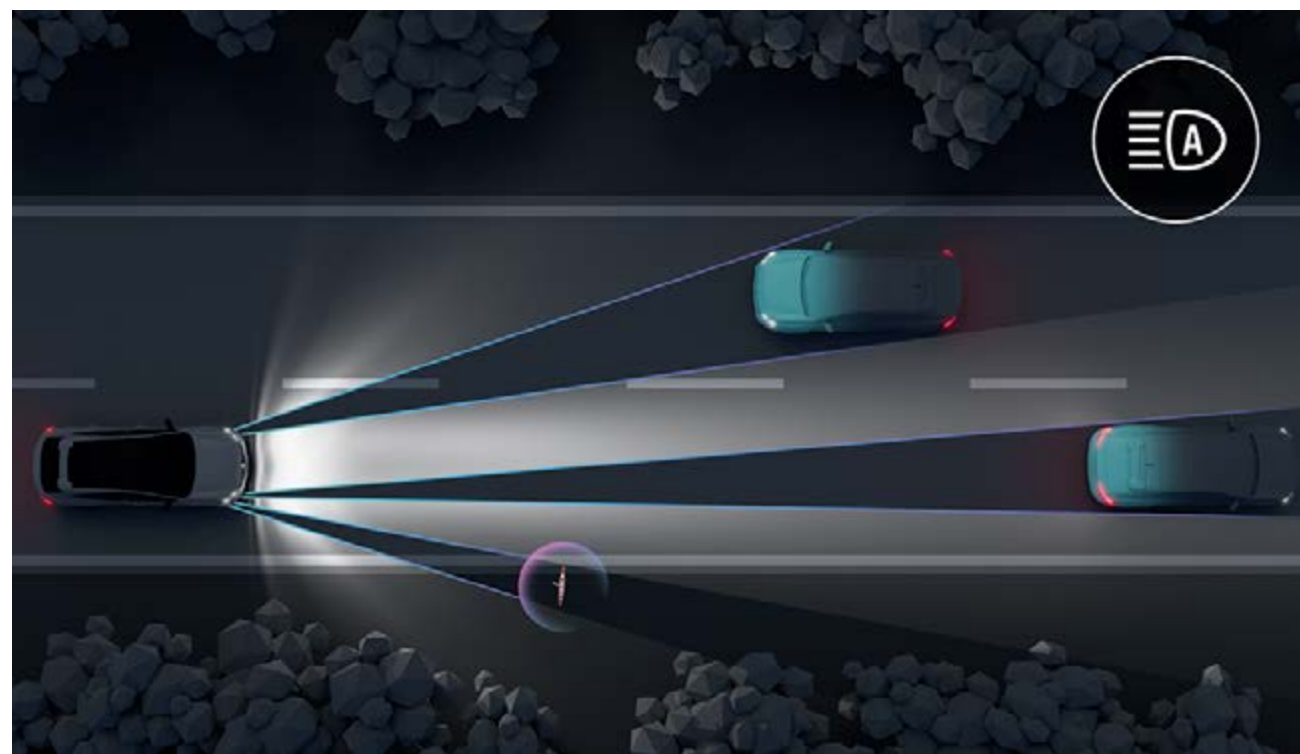

front detection with emergency trajectory correction

The system warns you of a potential collision with an overtaking vehicle in the adjacent lane. If a collision is likely, it performs an automatic emergency trajectory correction.

automatic emergency braking system inter-urban / urban / pedestrian / cyclist

It detects pedestrians coming from the front or side and stops the vehicle in the event of danger. Driving around town has never been safer, day or night.

LED matrix vision

The system automatically adjusts the light beam shape to the traffic and weather conditions to avoid glare and optimise night vision.

driver assistance

- active driver assist⁽¹⁾
- 9.3" head-up display
- hill start assist
- distance warning
- trailer stability assist
- automatic switching between auto high/low beam headlights
- predictive hybrid driving⁽¹⁾⁽²⁾
- adaptive vision LED headlights (with integrated fog light function)
- LED matrix vision
- speed limiter
- cruise control
- adaptive cruise control
- intelligent adaptive cruise control

parking assistance

- rear parking sensors
- front parking sensors
- side parking sensors
- rear view camera
- 360° around view 3D camera
- hands-free parking

safety assistance

- lane departure warning
- occupant safe exit alert
- blind spot warning
- rear parking space exit warning
- lane keeping assist
- rear detection emergency trajectory correction
- front detection with emergency trajectory correction
- automatic emergency braking system urban/inter-urban/pedestrian/cyclist
- automatic emergency braking at junctions
- automatic emergency braking when reversing
- traffic sign recognition
- traffic sign recognition and speeding alert⁽³⁾
- driver attention alert system

(1) included for 5 years. (2) continuous with the 300hp engine and 4 miles with 200hp. (3) included for 14 years. (4) please check full equipment list to see details by version. (5) always follow road safety regulations. It is your responsibility to stay alert, drive safely and be in control of the vehicle at all times. You should not solely rely on driver convenience and assistance features. Some features may not work in all conditions and circumstances, and they have speed and other limitations.

the human first program is a comprehensive safety programme developed by Renault in collaboration with researchers, experts and the fire service.

because road safety concerns all road users, whether they are pedestrians, cyclists, motorists, the human first program by Renault is committed to:

- 1. prevent accidents by developing safety equipment and advanced driver-assistance and safety systems**
up to 32 advanced driver-assistance systems/more than 60 safety features, up to 7 airbags, child seats (Isofix), Renault Fixe4sure solution / more than 2,000 safety-related patents filed since 1970
- 2. manage accidents once they have happened by drawing on innovations developed in collaboration with firefighters**
QRescue / Fireman Access / more than 5,000 firefighters trained over 10 years in 19 countries worldwide / around 400 cars donated per year for their training
- 3. reduce the number of accidents and their severity by investing massively in R&D**
safety score / safety coach / connected services / big data / artificial intelligence and cybersecurity systems
