

# RENAULT MEGANE E-TECH

electric

**17 December 2024**

UK spec may vary\*

# take to the road, electrically

**With Renault Megane E-Tech electric, pure driving pleasure and cutting-edge technology combine for an innovative mobility experience.**

Model shown is techno with iconic version wheels. Combination unavailable for sale in the UK. Image shown for illustrative purposes only.

**Bringing you such a great experience was simply a matter of pushing the boundaries. So that's what we did.**

**220 hp**

**from 0 to 62 mph in 7.5 s**

**up to 285 miles WLTP of range<sup>(1)</sup>**

**openR link system with Google built-in<sup>(2)</sup>**

**440 litres of boot volume**

**up to 24 advanced driver-assistance systems**

(1) WLTP figures shown for comparability purposes only. Actual real world driving results may vary depending on factors including the starting charge of the battery, accessories fitted after registration, weather conditions, driving styles and vehicle load / source: internal Renault, 2023, evolution version.  
(2) Google, Google Maps, Google News, Waze and other marks are trademarks of Google LLC. Only available from techno version. \*UK spec may vary. Combination of paint and wheels unavailable for sale in the UK. Image shown for illustrative purposes only. Please check online configurator via [reault.co.uk](https://reault.co.uk) to see paint availability by version.

# pure design

**Sensual and sleek, the lines of the electric Renault Megane E-Tech combine compactness with the liveliness of a sports car. Its original proportions and large 20" wheels<sup>(1)</sup> showcase its innovative personality.**

Model shown is techno with iconic version wheels. Combination unavailable for sale in the UK. Image shown for illustrative purposes only.

**It's all about style, with its flame red colour scheme combined with a diamond black roof<sup>(2)</sup>, full LED front brand light and 3D moiré effect strip at the rear.**

Model shown is techno with iconic version wheels. Combination unavailable for sale in the UK. Image shown for illustrative purposes only.

(1) 20" wheels on techno and iconic trim level, 18" on evolution. (2) available only on techno versions.

# reinvented ergonomics

Geared to meet all the driver's needs, the new cockpit features one of the largest on-board digital surfaces ever developed for a car: openR over two 12" screens.<sup>(1)</sup>

Grouped around the steering wheel, all the controls are easily accessible. The ergonomics are perfect, driving more serene.

UK dashboard fabric varies

(1) depending on version.

**build yours →**

## 02. driving range and charging

# pure electric sensation

Acceleration is vigorous, linear and muscular: with the 220 hp engine, it takes just 7.5 seconds to go from 0 to 62 mph.

With its dynamic chassis and low centre of gravity, driving sensations are maximised. Renault Megane E-Tech electric reveals its sporty DNA.

Model shown is techno with iconic version wheels. Combination unavailable for sale in the UK. Image shown for illustrative purposes only.

With paddles at your fingertips\*, manage the four levels of regenerative braking: as soon as you decelerate, you recover energy.

all the vehicle's main controls are centralised around the steering wheel: driver-assistance systems, call management, voice recognition activation

customisable 12.3" screen that can be customised according to the driving mode: sport to increase power and responsiveness

\* regenerative paddle shifters from techno version

## 02. driving range and charging

# 285 miles driving range<sup>(1)</sup>

**Renault Megane E-Tech electric is the result of innovative research and development that pushes the limits of performance and efficiency: optimised weight distribution, a generous wheelbase, and an extremely low centre of gravity.**

Model shown is techno with iconic version wheels. Combination unavailable for sale in the UK. Image shown for illustrative purposes only.

**Its new platform houses an ultra-flat 60 kWh battery and a compact 160 kW electric engine for a WLTP range of up to 285 miles<sup>(1)</sup>.**

### **aerodynamic design**

The lines of Renault Megane E-Tech 100% electric have been designed to maximise aerodynamics through the vehicle height and its autonomy: roof design, narrow-sided tyres, and sculpted bumpers.

### **heat pump and heat management**

Renault Megane E-Tech 100% electric comes with a heat pump linked to a battery and engine heat-management system, which automatically regulates battery and engine temperature, and ensures the thermal comfort of the passenger compartment whatever the weather.

### **optimum weight**

Weighing in at just 1,636 kg thanks to its aluminium doors, Renault Megane E-Tech 100% electric is one of the lightest electric vehicles in its category, meaning even greater driving range at equivalent power.

### **driving range<sup>(1)</sup>**

comfort range:  
up to 285 miles

(1) WLTP figures shown for comparability purposes only. Actual real world driving results may vary depending on factors including the starting charge of the battery, accessories fitted after registration, weather conditions, driving styles and vehicle load / source: internal Renault, 2023, evolution version.

## 02. driving range and charging

# easy to charge

**Renault Megane E-Tech electric comes with a versatile range of charging options that is unique on the market: at home, at work or on the road.**

Model shown is techno with iconic version wheels. Combination unavailable for sale in the UK. Image shown for illustrative purposes only.

## charging at home, at work or elsewhere

### AC 22 kW maximum charge

Charge Renault Megane E-Tech electric easily at home<sup>(1)</sup> using a wall-mounted charging point or a 3 pin socket. Outdoors, take advantage of the public network to charge the battery from 15-80% in just under 2 hours at 22 kW charging points.

### My Renault application

Check your range at any time; start charging your vehicle remotely to start at off-peak times.

### Mobilize power solutions

Order your charging solution and get it installed. Install a Mobilize charging point or a reinforced socket in your home to charge your vehicle with ease. Order your charging solution from the Renault network, and an expert will install it before your new Renault Megane is delivered.

## motorway charging

### DC rapid charge

For longer journeys, just over 30 minutes of charging at a rapid charging station will allow you to drive for 186 miles<sup>(2)</sup>.

### My Renault application

Locate the public charging points closest to your destination.

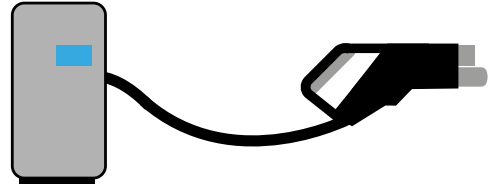

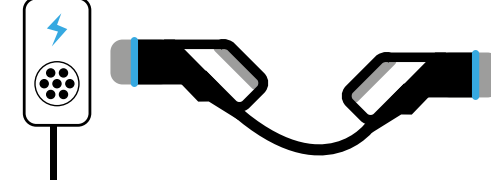

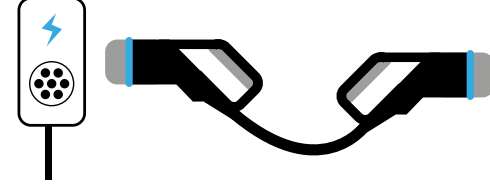

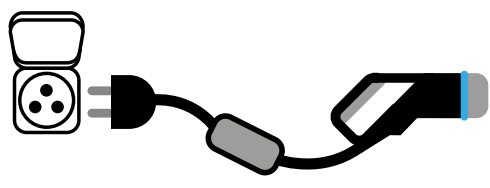

### Mobilize charge pass

Make charging on the road easier and pay less. Charge your Renault Megane quickly and easily on the move with a pass to Europe's largest charging network at attractive rates.

(1) Mobilize power solutions offering. For more information about Mobilize services, go to the Mobilize services page. (2) based on 36 minutes of rapid charge on up to 130kW DC charging in ambient conditions, recovering from 15-80%, actual range depends on driving conditions (type of road, driving style and weather conditions).

# Renault Megane E-Tech electric is delivered with a mode-3 type cable<sup>(1)</sup> that can be used with a domestic<sup>(2)</sup> or a public charging station.

| public  |   | domestic  |  |
|---|---|---|--|
| <b>public fast charging point<sup>(3)</sup></b><br>130 kW DC<br><br>cable attached to station | <b>public charging station</b><br>22 kW AC<br><br>mode 3 cable included with purchase | <b>domestic charging station<sup>(2)</sup></b><br>7.4 kW AC<br><br>mode 3 single-phase cable included with purchase | <b>standard 3-pin domestic socket</b><br>2.3 kW AC<br><br>mode 2 cable flexi-charger as an accessory |
|            |    |                                 |                 |
| <b>comfort range</b><br>15 to 80% → 32 min  | 15 to 80% → 1 hr 50   | 15 to 80% → 6 hrs 01  | 15 to 80% → 19 hrs 48  |

## simulate driving range and charging time

(1) mode 3 single-phase cable. (2) Mobilize power solutions offering. For more information about Mobilize services, go to the Mobilize services page. (3) maximum power and charging times are based on optimal charging conditions for the vehicle and for the charging point (peak power). The maximum power accepted by the battery (mainly in DC charging) varies depending on the battery's state of charge and the exterior temperature up to 130 kW for a comfort range battery.

**build yours →**

# openR & openR link, next-generation interface

With the new dual 12" openR screen<sup>(1)</sup>, marvel at one of the largest on-board digital surfaces.

For the best connected driving experience, Renault has integrated Google<sup>(1)(2)</sup> into the new smart openR link multimedia system<sup>(1)</sup>. Over 50 applications are available<sup>(1)</sup>, including 11 from Renault partners with Google Play<sup>(3)</sup>.

8 colour schemes to choose from and a high-definition image with reduced glare and more colours

## Simplify your electric journey with Google Maps<sup>(2)</sup> and use a journey planner updated in real time.

### electric journey planner

On the road, the system suggests itineraries based on available charging points and your battery life. If there is an obstacle on the road, the route is automatically recalculated and other charging points are suggested based on the new itinerary.

### charging point

Information on the availability and power of charging points in real time.

### charge optimisation

Automatic pre-setting<sup>(4)</sup> of the battery temperature for planned charging stops, resulting in faster charging.

### personalised experience

Adapts to your usage habits and preferences.

**With the voice assistant<sup>(2)</sup>, simply say: "Hey Google, lower the air conditioning!"**

Google Play gives you access to over 50 apps: music, podcasts, audio books, Spotify

**Over 50 applications<sup>(1)</sup> with exclusive content are available via Google Play<sup>(3)</sup>, including Waze, SongPop for Renault, and Amazon Music.**

**Waze** is a community-based navigation app that shares information in real time. Waze boosts your peace of mind.

Drive to the beat with our new musical game – **SongPop for Renault**. Play together and rediscover popular songs with your family and friends!

Take to the road while listening to playlists, and much more, with **Amazon Music**, included with your Amazon Prime subscription.

If Spotify is more your bag, download the app to listen to your favourite music or podcasts.

**Vivaldi browser** is an efficient, fast web browser that respects your privacy.

Access all your favourite radio stations live, at any time, in France or abroad, with **Radioplayer**.

Ready to play? Quizzes, riddles and challenges await you! With Renault and **Les Incollables®**, travelling is fun for all the family.

With **EasyPark**, plan and book millions of parking spaces across Europe. Enter your destination's address or navigate using the map.

**Sybel** is a unique platform to find your favourite podcasts, and discover exclusive original creations, audio books, new documentaries, etc.

(1) depending on version available on techno and iconic versions with programming of the charging point in Google Maps. Google, Google Maps, Google News, Waze and other marks are trademarks of Google LLC. (2) My Renault, Google Maps and Google Assistant connected services are provided free of charge for 5 years from the date of delivery of your vehicle. Google, Google Maps, Google News, Waze and other brand names are all trademarks of Google LLC. (3) the use of applications downloaded from Google Play requires a dedicated technopack. To use these apps, share your phone's connection with your Renault. (4) available on the techno and iconic versions with programming of the charging point in Google Maps. Google, Google Maps, Google News, Waze and other marks are trademarks of Google LLC.

**The My Renault application makes everyday life easier: preset the car's internal temperature, schedule charging, plan your journeys to automatically go via charging points, display the remaining driving range, and locate nearby charging stations.**

# Harman Kardon high-fidelity sound

Featuring cocoon effect technology developed by Renault, the passenger compartment is perfectly soundproofed.

The new Harman Kardon<sup>(1)</sup> system provides an immersive experience for all passengers. It boasts total power of 410 W.

(1) standard for iconic version.

**build yours →**

## 04. interior space

# 440 litres of boot volume

**Free of charging cables, which have their own storage area accessible via the false floor, the boot has a loading volume of 440 litres.**

**The platform specifically designed for electric vehicles features a completely flat floor (since there is no transmission tunnel). Available space is optimised: 33 litres of storage space in the cabin.**

209 mm knee room in the rear

**build yours →**

## 05. advanced driver-assistance systems

# up to 24 advanced driver-assistance systems<sup>(1)(2)</sup>

As part of the human first program, Renault Megane E-Tech electric comprises up to 24 innovative advanced driver-assistance systems.

### active driver assist

This system regulates your speed by taking the road environment into account, maintains safe distances and ensures you remain in lane. When traffic slows down, the vehicle stops and restarts automatically.

### 360° around view 3D camera

The 4 cameras, whose images recreate the vehicle's direct environment 360° around it, allow you to perform your manoeuvres effortlessly.

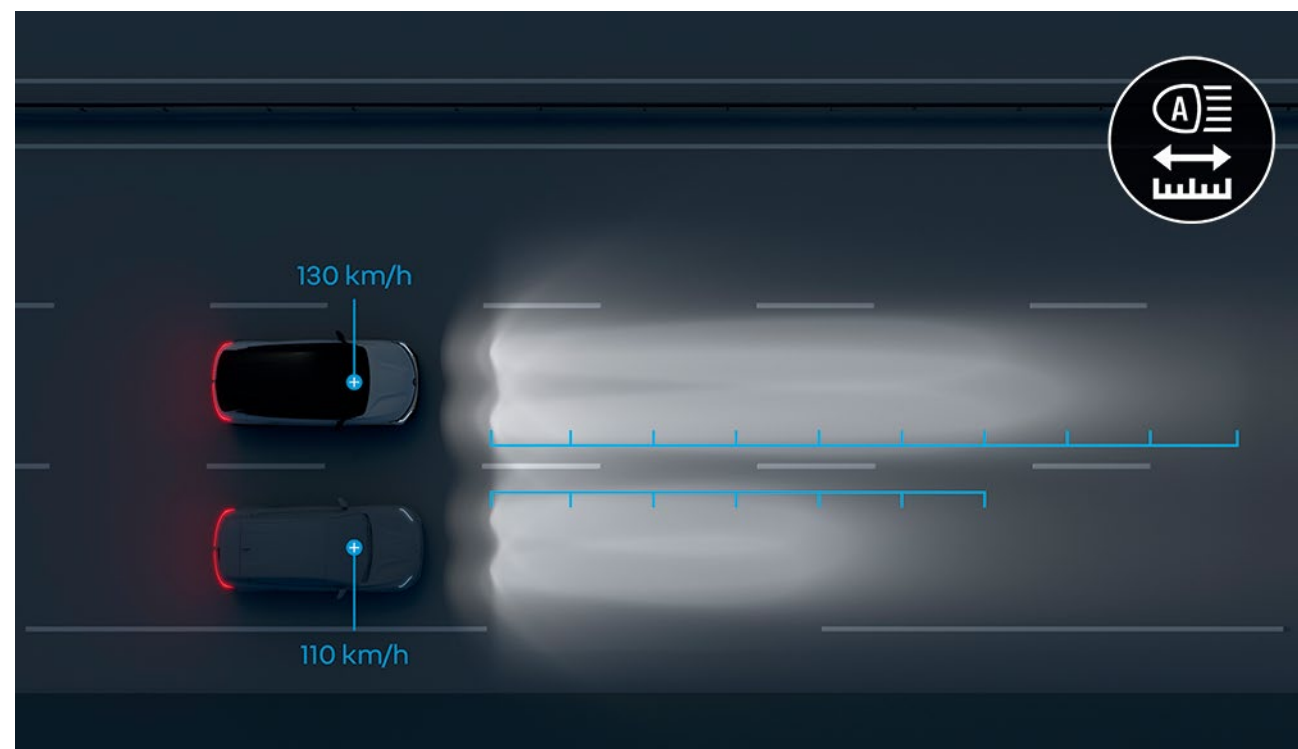

### rear view camera

A camera positioned at the rear of the roof is combined with a rear-view camera system. The interior rear-view mirror provides an unobstructed view, even with tall passengers in the rear.

### rear detection with emergency trajectory correction

The system warns you of a potential collision with an overtaking vehicle in the adjacent lane. If a collision is likely, it performs an automatic emergency trajectory correction.

### LED adaptive vision headlights

The system automatically adjusts the range and width of the front beam according to traffic conditions (speed, cornering) and weather conditions, for increased safety and driving comfort.

### rear parking space exit warning

This warns you in the event of obstacles at the rear of the vehicle.

### driver-assistance systems

- active driver assist
- hill start assist
- automatic high/low beam
- LED adaptive vision headlights (with integrated front fog light function)
- adaptive cruise control
- contextual adaptive cruise control

### park assist systems

- rear parking sensors
- front parking sensors
- side parking sensors
- 360° around view 3D camera
- rear view camera
- handsfree parking
- auto-tilting & folding wing mirrors with puddle lamp

### safety assistance systems

- distance warning alert
- blind spot warning and lane departure warning
- occupant safe exit alert
- emergency lane keep assist including solid line, oncoming traffic & road edge detection
- driver attention
- rear cross traffic alert with rear automatic braking system
- active emergency braking assist - urban and pedestrian / cyclist
- road sign recognition
- intelligent speed assistance [combines road sign recognition with overspeed prevention]

(1) advance driver-assistance systems is dependent on version. Please check full equipment list for more details. (2) always follow road safety regulations. It is your responsibility to stay alert, drive safely and be in control of the vehicle at all times. You should not rely solely on driver assistance features. Some features may not work in all conditions and circumstances, and they have speed and other limitations.

**the human first program is a comprehensive safety programme developed by Renault in cooperation with researchers, experts and firefighters.**

**because road safety concerns all road users, whether they are pedestrians, cyclists, motorists, the human first program by Renault is committed to:**

**1. prevent accidents by developing safety equipment and advanced driver-assistance and safety systems**

numerous advanced driver-assistance systems/more than 60 safety features, up to 7 airbags, child seats (Isofix), Renault Fixe4sure solution / more than 2,000 safety-related patents filed since 1970

**2 manage accidents once they have happened by drawing on innovations developed in collaboration with firefighters**

QRescue / Fireman Access / more than 5,000 firefighters trained over 10 years in 19 countries worldwide / around 400 cars donated per year for their training

**3. reduce the number of accidents and their severity by investing massively in R&D**

safety score / safety coach / connected services / big data / artificial intelligence and cybersecurity systems

**[find out more about the human first program](#)**

# glossary

## **E-Tech**

100% electric, hybrid or plug-in hybrid technology developed by Renault.

## **regenerative braking**

System for the recovery of energy during braking, which increases the vehicle's driving range: whenever the vehicle slows down, part of its kinetic energy is converted into electricity. The battery recharges when the driver lifts his or her foot off the accelerator pedal or presses slightly on the brake pedal.

## **reinforced domestic socket**

A home charging solution that is more efficient than a simple domestic socket. Allows for more powerful (3.2 kW for a reinforced socket vs 2.3 kW for a standard socket) and more secure charging (fitted with a differential circuit breaker).

## **domestic charging point**

Delivers a much higher intensity than a standard domestic socket, for more efficient and faster charging. It enables safer home charging thanks to its systems for controlling charging and protecting against overvoltage.

## **flexi-charger**

Charging cable that can be used to plug a car into a domestic power outlet. Designed for occasional home charging, the flexi-charger should preferably be plugged into an electrical socket connected to a specific earth connection.

## **mode 2**

For domestic use, this cable is needed to charge an electric vehicle using conventional sockets.

## **mode 3**

This cable is needed to charge the electric vehicle on a wallbox or with public infrastructure.

## **useful capacity**

Amount of energy contained in the battery that can be used by the vehicle. Value expressed in kilowatt hours (kWh).

## **kWh**

Abbreviation of kilowatt hour. Unit of energy which corresponds to 1 kW of power consumed over one hour.

## **kW**

Abbreviation of kilowatt. Unit used to measure the power of a vehicle's engine, whether it is electric or powered by an internal combustion engine. The kilowatt measures the direct current (DC) or alternating current (AC) charging power.

## **AC charge**

Low to medium power alternating current charging (max. 22 kW). This is the charging method most commonly found in homes or at most public charging points.

## **DC charge**

Rapid direct current charging (min. 50 kW). Requires a specific fast charging station, available only on the public network.

## **My Renault**

Renault application connected to your vehicle that can be downloaded onto your phone from Google Play or the App Store. You can use it to locate nearby charging stations, find your vehicle, schedule charging and plan your journey in advance, as well as to display remaining range and preset the temperature of the passenger compartment.

## **heat pump**

Equipment used to heat the passenger compartment of your electric car. The heat pump significantly reduces your consumption of electrical energy and maximises your driving range when the exterior temperature drops below 15°C.

## **kWh/100 km**

Unit of measurement for the average consumption of energy of an electric or plug-in hybrid car over a distance of 100 km. This is the equivalent of "litres per 100 kilometres" for electrified vehicles.

## **WLTP**

Worldwide harmonised Light vehicles Test Procedure. This protocol defines the exact conditions under which vehicle tests are carried out, irrespective of the manufacturer, making it possible to share and compare information that is important to consumers and legislators, such as fuel or electricity consumption, the range of electric or rechargeable hybrid vehicles, and pollutant emissions that are much closer to everyday use.

# Mobilize, services to make your life easier in electric vehicles

Enjoy a completely practical and efficient electric experience: installation of a charging point in your home as soon as you purchase the vehicle, support services delivered via your mobile, card for accessing and paying for the use of European charging points.

## **Mobilize power solutions**

Installation of home charging solutions.

## **Mobilize charge pass**

Easier payment and location of charging points.
